LESSON 13

TRADING OFF

Find the pairs that total 10.

5 6 1 4 9
5 2 7 8 3

Tens are easy numbers to use.

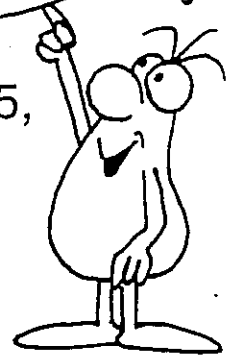

You can "make tens" to make mental addition easier. Here's how ...

$$38 + 45$$

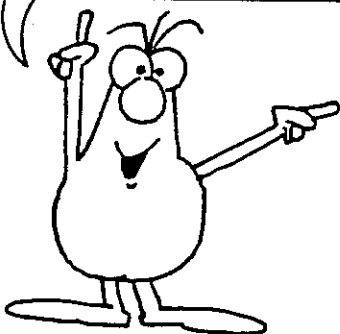

"Make tens" with 38, then adjust the 45.

Or "make tens" with 45, then adjust the 38.

TRY THESE IN YOUR HEAD. Make tens with one number and adjust the other.
