## WORDLY WISE

Horde comes from the Polish word *horda*, which in turn came from the Turkish word *ordu*, meaning "military camp" or "army." Centuries ago, the Turkish Mongols swept across Asia and eastern Europe in vast numbers, conquering the people in those areas. The word *horde* came to mean "a large number [of people] on the move." Don't confuse this word with *board*, which is a noun and means "a hidden supply or store." *Hoard* is also a verb that means "to save and store away in a greedy or secret manner." *Horde* and *board* are homophones; they sound the same but have different meanings and spellings.

The antonym of rural is *urban*. New York City is a large *urban* center; upper New York State, with its many farms and small towns, is mostly *rural*.

In Latin *sanctus* means "holy," and the original meaning of sanctuary is "a holy place." Churches, temples, and mosques were considered sanctuaries; people wanted by the law could find protection in such places because officers of the law would not enter them. The word *sanctuary* came to mean "protection offered by being in a holy place," and its meaning was later extended to include any place that offers safety. A bird sanctuary, for example, offers protection to the birds that nest there.
